

One Day Course

CoCo Bonds Explained

Concepts - Structuring - Market - Regulation & Pricing

Barcelona, 9th of July 2015 (9.30am-5.30pm) – Central Barcelona

About the Course

The course takes a very pragmatic and practical approach and guides the delegate through the complex world of Contingent Capital and Contingent Convertibles (CoCo) bonds.

The course subsequently covers :

- What CoCos are ?
- The role of CoCos in the new regulatory landscape.
- Structuring and anatomy of CoCos.
- An up-to-date overview of the currently over USD100bn CoCo market.
- How to price and risk-manage CoCos.

About the Course Leaders

WIM SCHOUTENS (Leuven, Belgium) is a research professor in financial engineering at the Catholic University of Leuven, Belgium. He has extensive practical experience and is well known for his training and consulting work to the banking industry and other institutions. He is an independent expert for the European Commission and author of several books on CoCos.
